SATURDAY EVENING MOVIES - IN THE AUDITORIUM - JUNE

June 3rd - 7:00 p.m. - Bridget Jones's Diary - 2001 - 97 mins

Starring: Reene Zellweger, Colin Firth and Hugh Grant

Bridget Jones is an average woman struggling against her age, her weight, her job, her lack of a man, and her many imperfections. As a New Year's Resolution, Bridget decides to take control of her life, starting by keeping a diary in which she will always tell the complete truth. The fireworks begin when her charming though disreputable boss takes an interest in the quirky Miss Jones. Thrown into the mix are Bridget's band of slightly eccentric friends and a rather disagreeable acquaintance who Bridget cannot seem to stop running into or help finding quietly attractive.

June 10th - 6:45 p.m. - La La Land - 2016 - 128 mins

Won Six Academy Awards 2017

Starring: Emma Stone, Ryan Gosling and Rosemarie DeWitt

Mia, an aspiring actress, serves lattes to movie stars in between auditions and Sebastian, a jazz musician, scrapes by playing cocktail party gigs in dingy bars, but as success mounts they are faced with decisions that begin to fray the fragile fabric of their love affair, and the dreams they worked so hard to maintain in each other threaten to rip them apart.

June 17th - 7:00 p.m. - Fly Away Home - 1996 - 107 mins

Starring: Jeff Daniels, Anna Paquin and Dana Delany

Amy is only 13 years old when her mother is killed in an auto wreck in New Zealand. She goes to Canada to live with her father, an eccentric inventor whom she barely knows. Amy is miserable in her new life...that is until she discovers a nest of goose eggs that were abandoned when developers began tearing up a local forest. The eggs hatch and Amy becomes "Mama Goose". The young birds must fly south for the winter, but who will lead them there? With a pair of ultralight airplanes, Amy, her dad and their friends must find a way to do it.

June 24th - 6:45 p.m. - Hidden Figures- 2016 - 127 mins

Starring: Taraji Henson, Octavia Spencer and Janelle Monae

As the United States raced against Russia to put a man in space, NASA found untapped talent in a group of African-American female mathematicians that served as the brains behind one of the greatest operations in U.S. history. Based on the unbelievably true life stories of three of these women, known as "human computers", we follow these women as they quickly rose the ranks of NASA alongside many of history's greatest minds specifically tasked with calculating the momentous launch of astronaut John Glenn into orbit, and guaranteeing his safe return. Dorothy Vaughan, Mary Jackson, and Katherine Johnson crossed all gender, race, and professional lines while their brilliance and desire to dream big, beyond anything ever accomplished before by the human race, firmly cemented them in U.S. history as true American heroes.
